

EAST'SIDE "JUSTICE."

Mrs. Apidorf the Victim of Robbery and Assault.

Ordered at a Police Court to Serve a Summons in Person.

She Did So and as a Result was Savagely Beaten.

A brutal assault was made upon a woman this morning by persons who are said to enjoy immunity from arrest owing to political influence.

Mrs. Sarah Apidorf, 172 Allen street, served upon her husband, Morris Apidorf, at 172 Allen street, a summons, charging him with having beaten her last night. The summons was issued this morning at the Essex Market Court by Justice Simms.

Mrs. Apidorf opened a coffee saloon in May, 1886, at 172 Allen street. Her husband, who left her some time before, returned and begged to be taken as partner. The woman says she feared to give her husband a half share in the business because, she claims, he was a habitual gambler.

However, she told him he could make his home with her and she would not let him want for anything. He had not been installed long in her home and affections, she says, when he insisted on putting his name on the show-window and in other respects exercising rights of ownership.

She carried matters with such a high hand, she says, that she was compelled to leave him, and by some household help, she says she practised the Court was deceived and judgment was rendered whereby the found her husband as owner of the cafe with her husband.

Not content with this victory, he threatened to take her into the street, and between them and the latter's wife, he threatened to take her into the street.

"I thereupon went to the Essex Market Court," said Mrs. Apidorf, "and complained of the treatment I had received. But it seems that my husband had secured a writ of habeas corpus, and I was told to go to the court."

"I then went to the Essex Market Court, and complained of the treatment I had received. But it seems that my husband had secured a writ of habeas corpus, and I was told to go to the court."

Dragged the Wire with Him and a Horse Was Killed.

Carl H. Maxwell, thirty-two years old, foreman of a gang of workmen, while repairing a trolley wire in Jersey City, this morning, sustained injuries which resulted in death soon after.

He was on top of the tower wagon repairing a break in the trolley wire at Green and Montgomery streets when he accidentally touched a live wire.

With a cry of pain and terror he fell from his position, striking the stone pavement on his head. He was removed to the City Hospital, where it was found that his skull was fractured and his hands burned from coming in contact with the wire.

Maxwell fell he dragged the wire with him, and a horse was killed. One of the animals stepped on it and was killed.

Maxwell's body was removed from the hospital to his late home, at Montgomery street and Baldwin avenue. Some time after the accident, the horse was found at the time they ran up the ladder to rescue him when he cried out, but before they could reach him he fell to the pavement.

FOR THE GOLEET CUP.

Nice Wind from the Northward to Send the Yachts Along.

Big Lot of Visitors to See the Great Race.

Fine Class of Vessels to Compete for the Prize.

(Special to The Evening World.) NEWPORT, R. I., Aug. 10.—The chances for a strong breeze for the Goleet Cup race today are fairly good. At 7 A. M. there was a six-knot breeze from the northward, and the traveling clouds indicated more wind from that quarter.

Old boatmen here, however, say that northerly winds do not last, so it is expected that the breeze will die away before the Regatta Committee can start the yachts early. Chairman Kane, of the Committee, sent two boats out at 11 o'clock last night, one to West Island buoy and one to Block Island buoy, in anticipation of a north wind, to mark the turning point. The Regatta Committee will start the Regatta at 10 A. M.

Painter Ayers Had Snakes.

They Weren't in His Boots, but One Was in His Trousers.

He Threw Them on a Pile of Hay While Working in His Overalls.

WOODBRIDGE, N. J., Aug. 10.—David Ayers, a painter, of this place, had an experience yesterday afternoon which he will not soon forget. David had the "snakes," not the kind brought on by the excessive use of liquor, but he and a real snake became tangled up together and his snakeship was the victor.

David has been engaged for the past few days painting the large barn of Peter Nelson at Fords Corners, three miles from here. Yesterday afternoon before going to work he went into the barn and taking off his trousers donned a pair of overalls. He carefully threw his everyday trousers on a pile of hay.

After working several hours he started to dress to go home. He returned to the barn and removing his overalls propped them up on his trousers. As he stepped on one of the trousers legs he was surprised to find something was obstructing his progress.

He gave a tug, and a large snake poked his head out of the waist-band and looked up at David in a ugly manner. Ayers was horrified, and dropping the trousers, fled from the barn carrying the snakeship in his hand.

As soon as he dropped his wearing apparel the snake slipped out of the leg and disappeared. David says he has never seen a snake before, and he is a teetotaler, when the snake made its appearance he was somewhat unnerved.

SHOT BY A CHILD WIFE. Mrs. Russo Says Juliano Wanted Her to Poison Her Husband.

(Special to The Evening World.) NEWARK, N. J., Aug. 10.—The Italian quarrel in Drift street was thrown into a state of great excitement last night by a shooting affray, which may turn out to be a murder case.

Mary Russo, fifteen years old, who lives with her husband at 15 Drift street, shot and severely wounded Pasquale Juliano, a tailor's apprentice, eighteen years old.

Juliano had requested Mrs. Russo to allow him to use her sewing-machine, and had been working in her room all the afternoon, when the neighbors heard the report of a pistol, followed by a heavy fall. Pushing into the room, they found Juliano lying unconscious on the floor, and Mrs. Russo standing over him flourishing a smoking revolver.

The young tailor is very popular in the colony, and had it not been for the shooting affray, he would have been lynched. The excited Italians gathered about the scene, and a crowd of menacing gestures.

When taken to the station-house, she declared that Juliano had wanted her to poison her husband with the contents of a vial he gave her, and marry him. She said she had refused, and Juliano thereupon attempted to strangle her.

She resisted, and in the struggle a stiletto dropped from her assailant's pocket, and she picked it up. She held it up to the bureau, and her husband's pistol and fired.

Juliano is still unconscious at the city hospital, and his condition may cost Mrs. Russo her life.

MARKET STILL ON THE RISE. LULL IN THE CORN MARKET.

Tariff Delay and Drought Failed The Opening Price a Half a Cent Lower.

Bulls Seem to Be Stealing a March on the Bears.

Another Flurry is Looked for Before Long.

The battling forces in the corn market seem to have declared an armistice, for the excitement of the past few days has given way to a quietude that can scarcely be understood by local traders.

There is still a feeling of uneasiness and expectancy among traders, both here and in Chicago, and the little fellows are waiting for something to turn up or for the big operators to give them a cue.

The opening price here this morning were at a decline of half a cent, December starting off at 57 1/2, selling immediately at 57 1/2, and fluctuating between those prices during the forenoon.

May opened at 57, holding to that price during the morning session. Trade in September was not very active, for the excitement of the past few days has given way to a quietude that can scarcely be understood by local traders.
